

exceptions/WrongArgException.h

```
graph TD; A[exceptions/WrongArgException.h] --> B[exception]; A --> C[iostream];
```

The diagram illustrates a header file, `exceptions/WrongArgException.h`, which serves as a base for two other components: `exception` and `iostream`. Two blue arrows originate from the bottom of the top box and point to the top of the two bottom boxes, indicating a relationship or inheritance.

exception
